Hello Mark- I have asked Commander Hamilton at OVB to assist with the further investigation and identification. Then will work with DC Marino and you if we determine that we have a community member so injured. Will keep you looped in. Best, B

Thanks for looping me in on this. I imagine you may already know all of this, but when the OIG became aware today of an LA Times retweet regarding an alleged baton strike that resulted in a broken wrist, we notified IAG via 15.2 and also got in touch with Captains Pasos and Setzer to make sure they were both aware of it as well and could help obtain more details, including whether there was possibly a CUOF or not in this instance.

Let me know if there is additional info from us that may be helpful in gathering those details.
